

## Innovative Chemical Products Group Announces Acquisition of Rock-Tred by Construction Division

**Andover, Mass.—January 16, 2017—** Innovative Chemical Products (the ICP Group) has announced the acquisition of Rock-Tred Corporation, a leading manufacturer of polymer floor coating solutions that repair, maintain, protect and beautify floors. Rock-Tred will be integrated into ICP Construction, Inc., one of the three divisions of the ICP Group.

ICP Construction has two primary product groups: architectural paint and coatings, and performance coatings. Rock-Tred will be positioned into the performance coatings group, joining established brands such as Fiberlock, Dry-Treat, and California Sports Surfaces.

Headquartered in Waukegan, Illinois, Rock-Tred was founded in 1939 and is a manufacturer of innovative polymer floor coatings. They are leaders in the industrial floor coating industry offering high quality, dependable and affordable flooring solutions. Additional products include wall coatings, flexible membranes, joint sealants and patching compounds. Rock-Tred products can be found in manufacturing plants, biotech labs, food and dairy facilities and commercial outlets worldwide.

"We are excited to welcome Rock-Tred to the ICP Construction family," said Doug Mattscheck, CEO of ICP Group. "By expanding our product solutions in the building coatings market, we continue to extend our leadership and provide best-in-class solutions to contractors throughout North America."

As part of the larger platform company, ICP Group, the ICP Construction division provides opportunity for continued growth, and added strength through raw material purchasing synergies, technological collaboration, and shared service. With the addition of Rock-Tred's extensive product offerings and patented technologies, ICP Construction further expands its leadership position in the specialty coatings market.

### **About ICP Construction, a division of the ICP Group**

A global leader in the paints and coatings industry, ICP Construction is committed to providing the highest-quality paints, coatings and environmental remediation solutions for the architectural and building industries.
