

QUICK PRODUCT REFERENCE GUIDE

Rock Quick Patch (RQP)

Must have for EVERY contractor!

- * Great for “sinkers”, cracks, vertical patches
- * Good working time; fast cure time
- * Easy 1:1 mix ratio
- * Lower viscosity “Gun Grade” formulation packaged in dual cartridge tube sets

Chem-Rock Primer WB

Doubles as low cost primer and sealer!

- * Waterborne, quick cure, easy working primer
- * Excellent low cost, high wear coating system when applied in two or more coats
- * Limited pre-pigmented solid colors available
- * High 200 – 250 sq. ft./gal coverage!

Rock-Block Moisture Barrier System

Industry’s Best Moisture Suppression Primer!

- * Low molecular weight for deep penetration
 - * Can handle up to 100% RH (per ASTM F2170)
 - * Shot-blast or diamond grind to a CSP-2
- Great News if you don’t own a shot-blaster!*

Eco-Poxi

Protect your pockets and your floor!

- * 100% solids; great clarity with low viscosity for multiple uses and easy applications
- * Use as a low cost clear or pigmented base coat for broadcasts or for slurry patching

Chem-Rock Ultra UV

Better than Blue-Blockers!

- * WATER CLEAR, 100% solids epoxy for the best long-term protection against yellowing and de-glossing on indoor applications
- * Excellent flow and leveling characteristics
- * Multiple kit sizes from 1.5 to 9 gallon units

Chem-Rock LV, MV and HV

ROCK-TRED’s #1 selling line!

- * 100% solids, WATER CLEAR, high-gloss, field tinted using our Universal Colorants
- * Available in 3 formulations – Low (LV), Medium (MV) and High (HV) viscosity
- * Useful as body and finish coats in decorative or industrial systems
- * Good UV and chemical resistance
- * LT-45 and LT-25 versions available for low temperature or fast curing applications
- * User friendly!

Chem-Thane Polyaspartic Coatings

Chem-Thane P-50, P-100 and P-200

All the best of epoxy and urethane technologies in one product!

- * Available in 3 high solids, low odor, formulas for installations from 0°F to 85°F
- * Rapid recoat and return to service times
- * WATER-CLEAR, high gloss finish that can be field tinted using our Universal Colorants
- * Superior abrasion, chemical and UV resistance even in outdoor applications!

Novo-Poxi

Nothing gets past it...

- * 100% solids Novolac epoxy
- * Broad spectrum chemical and heat resistance
- * Excellent body/broadcast and finish coat

Rock-Crete Trowel (TR) Slurry (SL)

Ultimate flooring for food and beverage plants!

- * Cementitious urethane systems designed for excellent chemical, wet or dry high temperature and thermal shock exposure
- * Tolerant of damp substrates as cool as 40°F

All products featured are VOC compliant, and meet USDA/FDA guidelines for use in federally inspected facilities.
